- Management Skills
- Teamwork
- Problem-Solving
- Communication Skills
- Critical Thinking
- Organization

ABOUT ME

Student of Fontys University studying Information Technology with a growing skillset in web development, mobile app development (React Native, Kotlin), backend systems, and Agile methodologies. Proficient in collaborative work, eager to learn, and passionate about creating impactful projects. Seeking part-time opportunities to gain real-world experience through practical application and collaborative team environments to strengthen and improve coding skills.

CERTIFICATIONS & COURSES

- Completed W3Schools Java Course.
- Enrolled in Udemy backend and Java courses to enhance expertise.

PROJECTS

Fontys University of Applied Science Tickify Website: 2023 - 2024

- Built a ticketing platform for event creation and sales.
- Tech Stack: HTML, CSS, PHP, SQL (Docker for backend data storage).
- Role: Frontend and backend developer; collaborated on user interface design and database integration.

Fontys University of Applied Science Airline Management System: 2024 - 2024

- Developed a management system for airline operations in collaboration with the team.
- Tech Stack: Java, SQL (PostgreSQL within IntelliJ IDEA).
- Role: Designed front-end components and implemented core functionality.

Fontys University of Applied Science Treasure Map App (Ongoing): 2024 - 2025

- A mobile application for interactive treasure hunts with QR codes, games, and social features.
- Tech Stack: Kotlin, LoopBack (backend), React Native & TypeScript for cross-platform builds, Expo for live device testing.
- Role: Designed the front-end in Kotlin with a partner; responsible for UI/UX design and connecting the front-end to the backend.

PROFESSIONAL METHODOLOGIES

- Agile Development:** Experienced in applying Agile principles, focusing on iterative development and collaboration.
- Scrum Framework:** Familiar with Scrum practices, including Scrum meetings (daily standups, retrospectives), sprint planning, task prioritization, and backlog grooming.
- Waterfall Development:** Knowledgeable about sequential software development methods.
